Animaniacs is a great opportunity for your child to have fun while learning about animals. The amount of interaction with the animals will vary based on the temperament of the animals at the Shelter at the time of camp. The camp environment can be stressful for certain animals and our priority is the safety and comfort of both the animals and the campers.

**Cost for one week — \$125**

Includes camp t-shirt and all crafts and activities.

The cost for the week of August 4-7 is \$100 due to closure on August 3rd for the Civic Holiday.

Animaniacs is a recreational based day camp where children enjoy games, crafts, and special activities.

Activities are centered around animals allowing children to learn about animal care and issues in a fun environment.

Animal encounters with instruction will teach the campers safety in handling animals. Children attending Animaniacs will learn the responsibilities of caring for animals.

Special guests will speak on various topics each day.

“From the time we picked him up at the end of the day until we arrived home he never stopped talking about the things he had done that day. There are things that he learned this week that will stay with him for a lifetime. A truly wonderful experience.”

“My child enjoyed all aspects of the program, both social and educational. It made her week so exciting.”

“My child came home every day full of excitement. It was wonderful to see her so happy. She is definitely thinking of a career doing something with animals.”
